Objective

I want to start my career in a good organization where I can improve my skills, grow both personally and professionally, and do my part in helping the company succeed.

Academic Qualification

Vignan's Foundation for Science, Technology & Research (2026)

B.Tech - 7.86

Govt Junior College (2022)

Intermediate – 8.5

Excellent High School (2020)

SSC - 10

Area of Interest

I am interested in AI&ML, as well as building user-friendly web development applications. I also have a strong interest in mobile app development which allow me to create interactive real-world applications.

Co-Curricular

- Completed a project internship on Web Development using the MERN Stack, and deployed a travel planner application with budget estimation and hotel booking features.
- Worked as part of a team on the project “Serfetch”, where I developed frontend and backend.

Certifications

- Introduction to Generative AI – Google Cloud
- Young Professional Program – TCS iON
- MERN Stack Development Course – ByteXL

Extra-Curricular

- Served as a NCC-Cadet in Vignan’s University.

Hobbies

- Playing Cricket
- Listening to Music
